January 2025

Next Monthly Meeting: Wednesday, January 22, 2025

PRESIDENT'S LETTER:

Happy New Year to All,

A quick reminder: Due to MLK holiday creating a scheduling problem at the usual location for our regular monthly meeting, this month's meeting will be on **WEDNESDAY, January 22nd**, and **NOT** on the day before (Tuesday) at the Buckhall VFD Hall.

Thank you to everyone to donated gifts to Toys 4 Tots. I am told we collected more toys than ever before. Thank you also to everyone who came out to our annual Holiday Party. Thanks too, to the Heartney's for hosting us and providing us with the turkey and ham.

A huge thank you especially to Theresa, KG4TVM, who, after finding out that the Yorkshire Restaurant would not be hosting us this year, stepped back in at near last minute to turn out another excellent Holiday Party for our club.

If you took part in the annual ARRL Straight Key Night (SKN) on New Year's Eve and New Year's Day, congratulations.

It's time to think about our Annual Dues, again. The amount is \$25.00 and the preferred method of payment is PayPal, if you can. Your other choices of payment could be, mailing it in, paying online or just bringing your payment to the monthly meeting. Renewal form and instructions are attached in the newsletter and the PayPal link can be found in the members section on the OVH's web site, <https://w4ovh.net>

OVH officer nominations are now being received for the upcoming officer elections for 2025; there will a vote for a new slate of officers for 2025 at the February, 2025 OVH meeting, also on a Wednesday (February 19th). So please be thinking of the best

HAM RADIO OPERATING / CONTEST EVENTS

Friday, January 24, 2025 (22:00 UTC) to Sunday, January 26, 2025 (22:00 UTC), the CQ World Wide 160 Meter CW contest. This has been a major low band contest for many, many years. It was sponsored and run for 60+ years by the now defunct CQ Magazine (by its use of CQ's highly motivated and involved contesting editors). Fortunately, the CQ WW 160 meter contents are being continued thanks to the efforts and organization provided by contesters loyal to this 160 meter event despite the demise of CQ Magazine. Details for the CW and the SSB contests at <https://cq160.com>

See, <https://www.arrl.org/contests> for more information and details about other contests on the ARRL maintained Contest web page, A more comprehensive, up-to-date, and long range planning contesting calendar with links to the rules for the various events is maintained at <https://contestcalendar.com> by WA7BNM. Another very good web site for info is NG3K.com. If you have the radio contesting bug or just want to find out how much is going on - a lot -, these are very good places to look!

RECENT ANTENNA WORK WITH PICTURES - John / KG4NXT

Before all the “big” snow came in early January, Al / KB4BHB mounted a new vertical antenna on a military fiberglass mast. John / KG4NXT and Gene / N4HFW were part of the crew that assisted Al. The antenna is guyed by two

lengths of parachute cord and an antenna bracket mounted on the soffit of Al’s house. The coax used was LMR 400. The PL-259 on the LMR 400 was damaged when John and Al attempted to ram it through a hole in the brick wall. A new connector was installed and the antenna works great. It will give Al good 440 Mhz capability for the upcoming Virginia QSO Party, the VHF/UHF contests and for 13 Colonies.

Gene / N4HFW had a problem getting into OVH’s 146.97 MHz FM repeater from his shack in his basement at this home QTH. To connect to the Thursday night net, Gene has been using an Android app to provide a link up via an Internet connection. To reestablish a direct

RF link to OVH’s 2 meter FM repeater, Gene located his mag mount 2 meter antenna and mounted it on his Weber grill for a ground plane next to his home, connecting the antenna into his basement shack. It works great.
